

MOBILE TRANSACTION SOLUTION

DynaPay offers a complete suite of mobile products and services for the on-the-go merchant, enabling them to succeed in today's competitive market. With **DynaPay**, our cloud-based solution, small to mid-sized merchants can easily and quickly enter the mobile arena. With a quick download of the **DynaPay app** on their own smart phone or tablet, merchants can securely process any form of accepted electronic payment from virtually anywhere.

Benefits to the Merchant

- **Cost Savings** – Merchants can use the **DynaPay** encrypted, bi-directional audio-jack card reader to qualify for swiped rates.
- **Enhanced Security** – Mobile transactions are never stored on the merchant's phone - only through the PCI compliant, DP Secure Payment Gateway.
- **Versatility** – Merchants can process payments securely away from their store-front or back-office and can consolidate reports through a single, cloud-based gateway account.
- **Ease-of-Use** – Through the DP Merchant Support Center, merchants can manage multiple devices from one centralized location.

- **Flexibility** – Merchants can simplify their business by choosing any combination of services & solutions all managed through a single merchant account.
- **Compatibility** – **DynaPay** has many configurable options that include downloading transactions into accounting software solutions, inventory management, and signature capture.
