

# Payment Processing Solutions for the Healthcare Industry

Managing your office and billing medical services can be difficult and time consuming. Not to mention billing insurance companies, tracking payments and invoices. Implementing electronic payment processing in your practice can improve the patient experience, improve cash flow and make work much easier for your staff.

On-Site payments with cutting-edge payment terminals.

Point of Sale, mobile apps or web payment gateway integration.

Secure and safe electronic transactions in compliance with PCI DSS.

**Dynamics Payments**

powered by  
**payroc**

Dynamics Payments LLC is a registered Independent Sales Organization (ISO) of Wells Fargo Bank, N.A., Concord, CA, and Oriental Bank, San Juan, Puerto Rico. The Clover name and logo are owned by Clover Network, Inc. a wholly owned subsidiary of First Data corporation, and are registered or used in the U.S. and many foreign countries.

# Don't put at risk the health of your medical practice.

The healthcare industry has enough challenges, getting paid shouldn't be one of them. Accept payments online, send payment links or simply upgrade your payment terminal. Let us simplify your office operations, reduce your processing costs and increase the efficiency of your staff so you can focus on the well-being of your patients.

## Streamline your operations

Reduce the time your employees spend on business administration and avoid errors due to manual data entry. Get access to current historical transactional information in real time of all payment methods registered from any computer, at any time or day (24/7/365).

## Diligence, safety and trust

Comply with the requirements of the Department of the Treasury while your customer's information is protected by our certified solutions in compliance with PCI DSS.

## Fraud and security monitoring

Your customers' payment details will always be protected by the most up-to-date and reliable payment security, including EMV, PCI validated Point-to-Point Encryption (P2PE), and tokenization.

## Local Technical Support

Local support at the time of installation and technical support throughout your life as a customer.
